Who is England's first-choice spinner? Based on England's selections in the past year, there is only one answer: Dom Bess, the lone spinner selected in all eight of England's Test matches in 2020. But who is used like them is a spinner England's first in Sri Lanka? This answer is a little more complicated. During the first three days of the opening Test at Galle, Jack Leach had bowed out 37 overs to Bess's 23.1. The control of the line and its length has been appreciated better, it has been withdrawn shots are much more frequent and he just looks a lot more threatening. CricViz's 'Expected Wickets' model, which seeks to measure the bowler's true value in a similar way to the 'Expected Goals' method in football, measures that Leach's bowling performance so far would normally be expected to claim 3.97 wickets, compared with Bess's 1.95. Even Bess seemed embarrassed by his first half being robbed of a five-fer, like a student being awarded the first star just for getting to the exam room on time. Before this series, Leach said he had never quite bowed to his best in an England shirt, even when taking 18 wickets in Sri Lanka in 2018. He has no reason to reassess that opinion, but he has un demonstratorally provided a reminder of his qualities: his ability to pound on the line and the length of the investigation, believing in the field to do the rest. On pitches that offer a turn, such an uninterrupted approach tends to be the most effective. I try to keep things as simple as possible and know that on wickets it's almost more or less, I guess - putting the ball in the right area over and over again. Leach reflecting on his last Sri Lankan Test sojourn. On day three at Galle, Leach bowed shorter than his best, explaining that when he tried to bowl faster he dragged down his length. But his superior line control and length still explain why, even with Sri Lanka's left-handed opening pair batted together uncathed until the 38th over - and off spinner generally more effectively for the left-hander - Leach was preferred by Joe Root. While 32 percent of Leach's shipments are on the line and of good length, according to CricViz, only 18 percent of Bess shipments are. He took turns too short and too full, unable, or unwilling, to make good on Leach's spell for bowling in Sri Lanka: the importance of finding the same line and length, time after time. To see Leach deployed over Leach by his captain only replicated how both had been used for Somerset. Even after Bess' England debut in 2018, Leach has always been the club's number one spinner - meaning Bess plays for the second XI just weeks after playing Test cricket. If it was a strange situation, reminiscent of when Jos Buttler and Craig Kieswetter competed to be first-choice wicketkeepers for England and Somerset, Bess couldn't really complain about his status. In all first-class cricket for Somerset, Bess has taken 79 wickets at an average of 27.3, Leach 225 wickets at 23.8. Since 2018, the duo have played seven Somerset matches together, with Leach having taken 38 wickets at 14 each, Bess 17 at 27.4 each. Realizing that he needs to bend over in county cricket for its development, and how Leach was safely covered as Somerset's number one spinner, Bess had just moved to Yorkshire. He had to find his way around Leach, because he couldn't find one through him. All this makes paining status for England in Test cricket a conundrum. Both played in their 11th Test but - even highlighted by the generosity of Sri Lanka's first innings - Bess still has a far less impressive record. While his 24 wickets have come in at 34.6 each, Leach's 36 scalps have come at a cost of 30.8 each. Of course, such comparisons are incomplete. At 23, Bess is six years younger than Leach. He's also a much better batsman; His output of number eight is a godsend given England's recent lack of lower order runs. He has shown a character who has a penchant for fighting in Test cricket. While Leach excelled in Sri Lanka three years ago, Bess has experienced unresponsive wickets in his Tests: this is the first time he has played on a pitch that offers a rewardable turn. He can expect five more during England's winter Tests. That should allow Bess to learn and grow, and become more accustomed to the responsibility and pressure that comes with being expected to win England's Test matches, rather than simply acting in addition to the seam attack. But six consecutive subcontinent Tests will also make comparisons between the two spinners unavoidable. While Bess has described himself learning about the job, Leach's ups and downs as a spin bowler are much closer to completion. Anyone who can gain Root's trust in the weeks ahead will be best placed to retain their place when there is only room for one more England spinner. Ad•NewsressThank you for your feedback.
